

# Genalta Power

## **Title: General Manager**

Genalta Power Inc. is a Canadian based clean power Generation Company leading the way in waste energy to power applications. As a client oriented solutions provider, we are able to capture energy from sources such as waste heat, pressure and gas and create cost-effective and environmentally responsible electricity. Genalta is developing projects in strategic regions of North America with an emphasis on the Oil, Gas and Chemical Industries.

The General Manager will be a senior member of our Executive Management team who will be primarily responsible for all aspects of Power Generation from Project Management to Operating and Maintenance.

The General Manager will have direct influence on Project Management, Regulatory Compliance and Business Development. The General Manager will be result focused and this will be demonstrated through goal setting, seeking out opportunities, understanding when to move to action, persistence, will respond well to setbacks and in the face of difficulty will continue to search for solutions and results.

## **The ideal candidate will satisfy the following:**

- ✓ Must be able to balance being hands on and still maintaining their leadership role and responsibilities.
- ✓ Excel in client relationship skills.
- ✓ Ability to identify new opportunities.
- ✓ Able to fill all required operational roles within the company.
- ✓ Hold responsibility for developing Field Operations.
- ✓ Directly develop and manage the Engineering Department including Research & Development.
- ✓ Develop and manage Purchasing Manager Position.
- ✓ Strong record of people development and leadership.
- ✓ Engineering Degree, P.Eng.
- ✓ Knowledge of environmental practices, engineering design principles, contract management and project management.
- ✓ Knowledge of regulations, codes, standards and best practices (some enacted through legislation) that affect Genalta's engineering standards while advising and/or taking action on the potential impacts.
- ✓ Strong analytical, communication and collaboration skills, the ability to break down problems, understand impacts and to develop practical solutions.
- ✓ Minimum 10 years experience in a senior leadership role.
