

# Genalta Power

## **Position: Power Solutions Advisor**

**Genalta Power Inc.** is a Canadian based, clean power generation company leading the way in waste energy to power applications. As a client oriented solutions provider, we provide clients with complete solutions to manage their power requirements and costs. Our service offerings include development of strategic plans, benchmarking, energy management projects and electricity procurement, either financial arrangements or the development of physical assets, including the capture of energy from sources such as waste heat, pressure and gas and create cost-effective and environmentally responsible electricity. **Genalta Power** is developing projects in strategic regions of North America with an emphasis on the Oil & Gas and Petro-Chemical Industries.

### **WHY GENALTA?**

**Create your own career path - We are growing -you can grow with us.**

**Accomplish great things - Dynamic work environment that is always changing.**

**Be rewarded - Share in the company's success through performance based bonus.**

The **Power Solutions Advisor** will act as a leader in coordinating all aspects of our clients electricity related issues and costs, including electricity markets, utility tariffs, electricity settlement, electricity procurement and generation project development.

As the **Power Solutions Advisor** you will use best practices in managing people and projects as well as a commitment to continuous improvement to deliver projects on time and on budget.

The successful candidate will be a team player, strong leadership style & skills with the ability to solve challenging problems and create innovative solutions in a collaborative environment. The ideal candidate will have the ability to recognize opportunity and will have the following qualifications:

- ✓ 5 to 15 years experience in the Alberta electricity industry with exposure to utility tariffs, AUC regulatory approvals, AESO / utility connection processes and/or electricity procurement.
- ✓ Expose to Alberta's electricity settlement systems and processes
- ✓ Ability to manage projects and interface with external clients

# Genalta Power

- ✓ Utility tariff optimization / energy management experience
- ✓ A degree in business and/or engineering
- ✓ Strong analytical and written communication skills
- ✓ Project management skills

As a **Power Solutions Advisor**, you will provide the following for external consulting clients:

- ✓ Development of strategic plans to manage electricity related issues and costs
- ✓ Development of benchmarking programs to track and manage electricity costs
- ✓ Utility tariffs analysis
- ✓ Financial and economic modeling of power generation projects
- ✓ Managing the wholesale purchase and sale of electricity contracts
- ✓ Procurement of electricity from third parties

The above position offers an excellent opportunity in a growing company to individuals that are results driven, have the ability to align their activity to achieve desired results and excel at meeting their commitments. The position is located in Calgary; Alberta. **Genalta Power** offers a compensation plan that includes salary and performance bonus. We thank all interested candidates for applying; however, **Genalta Power** will only be contacting those individuals we wish to interview. The posting will remain open until a suitable candidate is located. Please indicate in your response the following:

- ✓ Your educational background
- ✓ Professional designations currently held
- ✓ Experience specific to the required qualifications
